- *Check the identity of any strangers – keep them in public areas. Don't allow them to use non-public restrooms and phones.*
- *Keep all business checkbooks, cash, deposit tickets and credit cards locked in a secure area when not in use.*
- *Record all serial numbers of your business office equipment.*
- *Secure computer equipment with cable locks or other security device.*
- *Maintain good key and access card control.*
- *If you notice a malfunctioning door, alarm system, security camera, or an access security system, report the problem immediately to a supervisor, building management or security personnel as soon as possible. Do not assume that someone else has already reported it*
- *Greet people who enter your business, personal contact can deter crimes.*
